

Whenever you need us, we are there for you. 24/7

ACCESS made simple

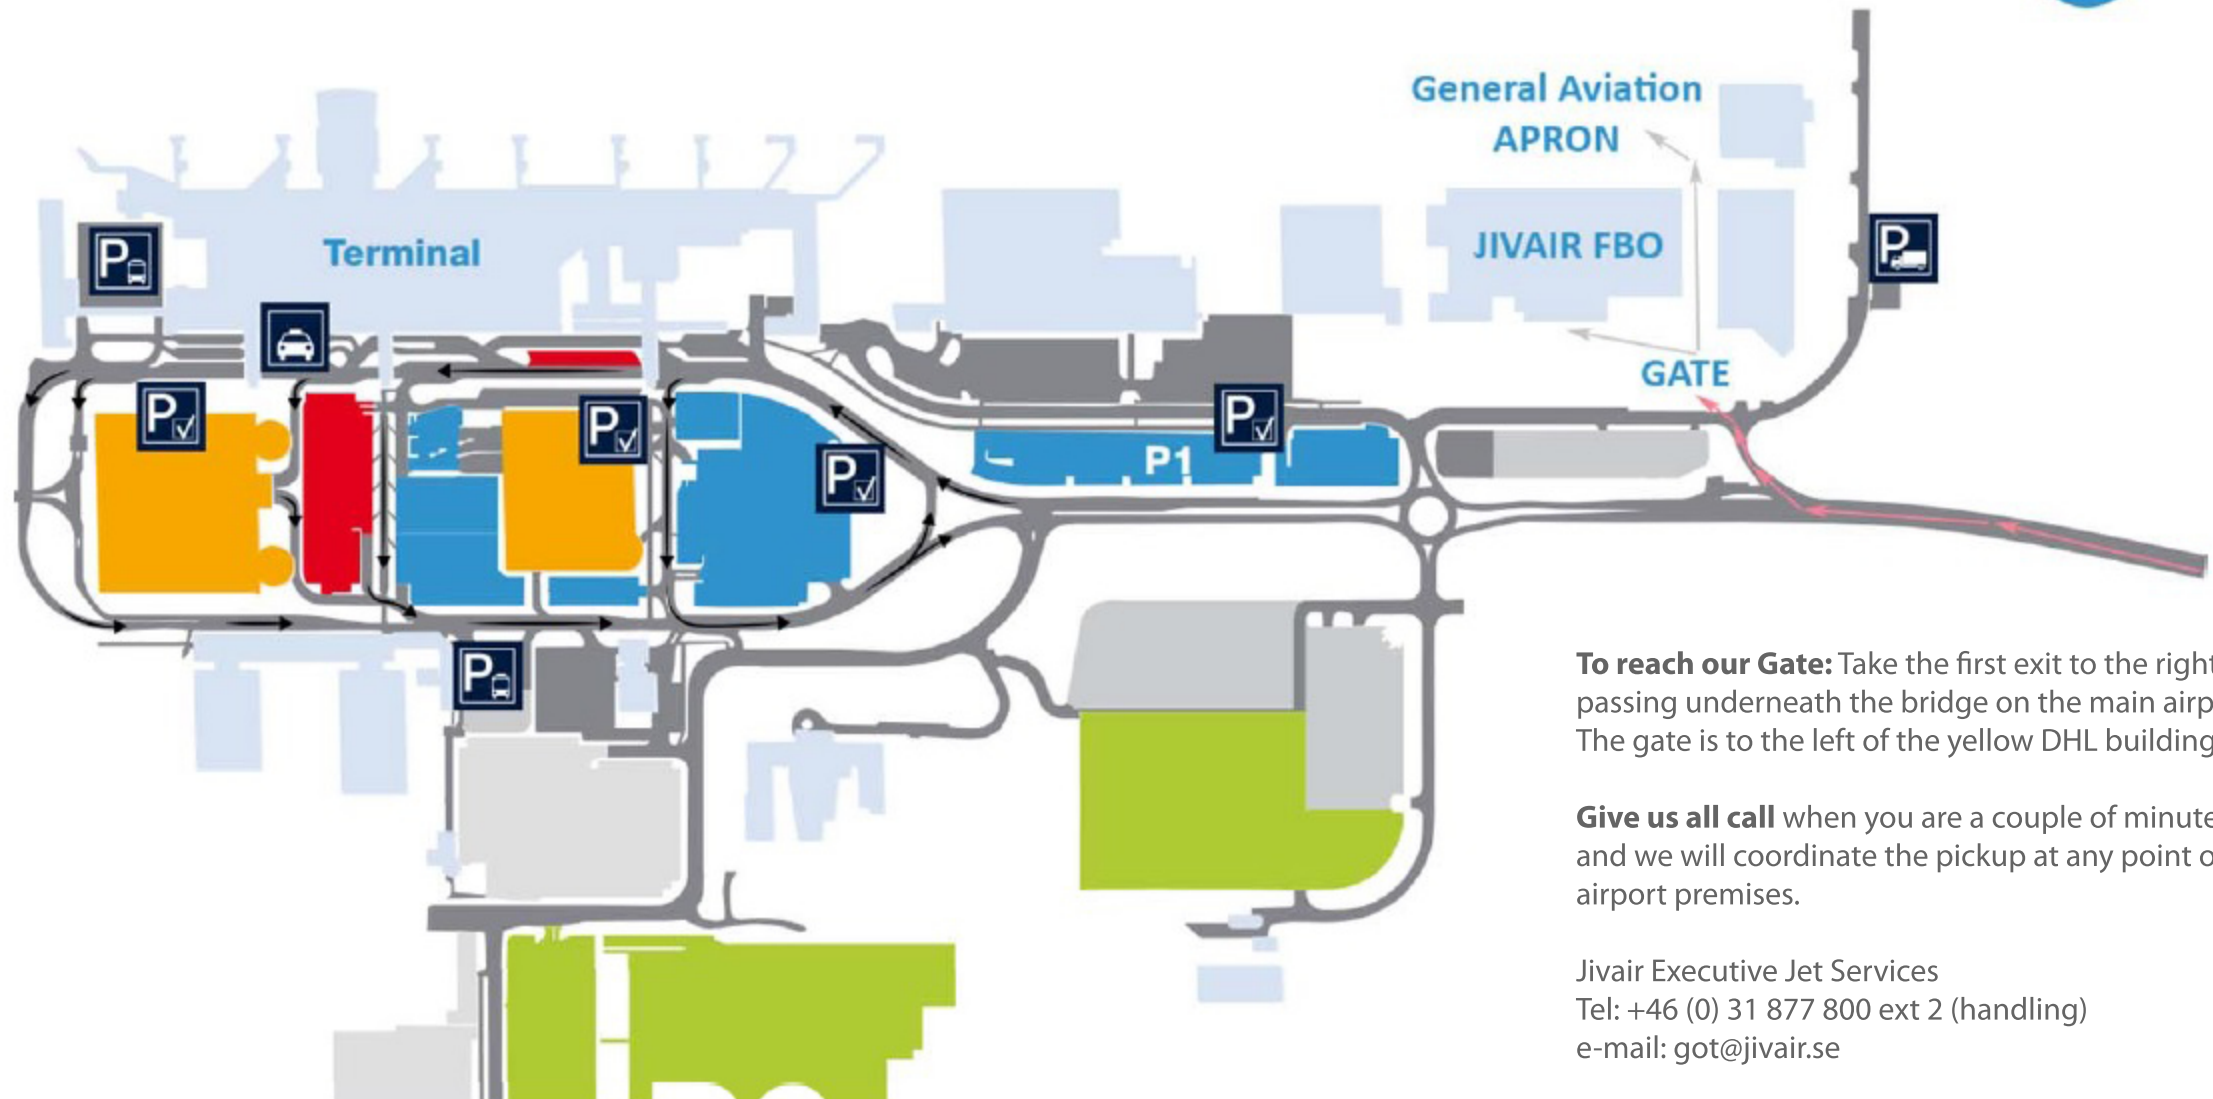

No more hassle with airport security screening or check in desks.

By using our gate, dedicated for Business and General Aviation, passengers and crew will be at their aircraft in seconds.

The gate is conveniently located along the main road, long before reaching the terminals. It connects the apron, our lounge facilities, the hangar and landside all together. Access is really made simple.

We arrange pickup or drop-off with our Mercedes-Benz V-class at any desired location on the airport premises.

The V-class is configured in a 3x3 club seating with an additional seat in the front, offering space for up to 7 passengers and plenty of luggage.

To reach our Gate: Take the first exit to the right after passing underneath the bridge on the main airport road. The gate is to the left of the yellow DHL building.

Give us all call when you are a couple of minutes out and we will coordinate the pickup at any point on the airport premises.
